

Aktuelle Grundprobleme bei der Regelauslegung zum passiven Spiel

**Acute basic problems
concerning the
interpretation of the rule
'passive play'**

1 Uniformity of decisions

- During one match
- Between the referees from one match to another

The line of the referees!

Question:

Does the adjustment of the teams to a line of the referees belong to the game?

2 Right moment

- Play passively – show the warning signal
- Show the warning signal – decide to loose the ball

3 Decide several times on free throw during one attack action

4 Shown warning signal – shot / penalty – team keeps the ball

Interpretation of the rule 'passive play' – further development

1. Reform the instruction of the referees → Force learning about tactics

Interpretation of the rule 'passive play' – further development

2. Intensify homeworking of the referees → E-learning-programs with interactive media

Interpretation of the rule 'passive play' – further development

3. Rule techniques (further development)

Warning signal ends:

1. After a penalty
2. After a shot and the attacking team keeps the ball
